ELEC. CONDUITS & VENT DUCTS	
DRAINAGE	

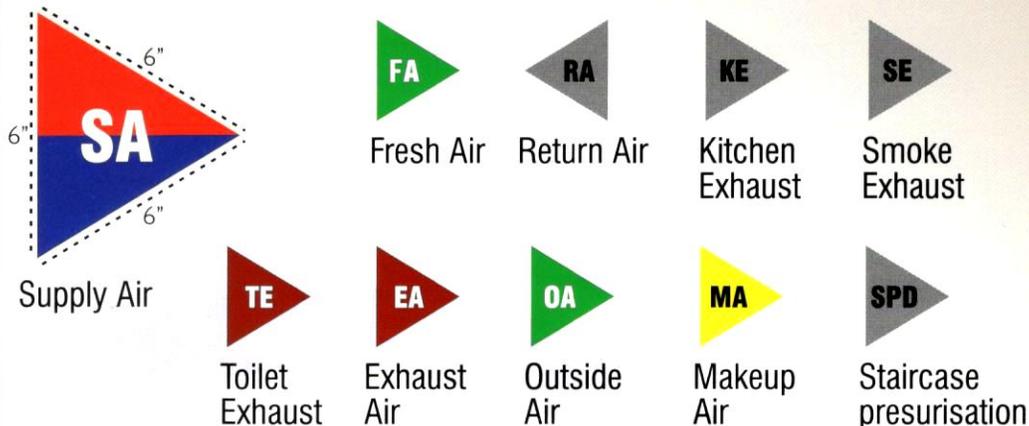

METHOD OF INSTALLATION

- ▶ Clean the pipe surface properly to make it dust free and the label should be applied on plain surface.
- ▶ Cut the required length of pipe label from the roll depends on the dia of the pipe.
- ▶ Peel off the release liner behind the label.
- ▶ Roll it 360 Degree over the pipe in such a way that it should be overlapped.
- ▶ Ensure the direction arrow is towards the actual flow of the pipe content.
